

# PART-TIME BUILDING PROJECT COORDINATOR FOR A FINNISH COMPANY

Kreivilä is a small and agile real estate development company operating in the Helsinki region, Finland.

We focus on building wood structured housing apartments from wooden modules. Until now we have constructed our modules in Finland and Estonia.

Now we are about begin partnerships with Polish building factories to begin manufacturing our prefabricated housing elements in Poland.

We are looking for a part-time project coordinator. Tasks include project planning and managing, market research and supporting our personnel in internation building projects

We are looking for ambitious and business oriented young people with a basic understanding of building technologies.
