

Call for papers: International Journal of Structural Integrity

We are currently seeking papers for the *International Journal of Structural Integrity*, edited by Professor Chris Rodopoulos, University of Patras, Greece. Launched in 2010, the journal is published in partnership with the European Aeronautics Science Network to bring together academic and industrial research in the area of damage tolerance design and structural integrity.

In its unique conceptualization, the journal brings together the key players governing the sectors of universities, research institutes, manufacturing industry, legislative bodies, SMEs, consultancy companies and maintenance companies.

Coverage includes, but is not limited to:

- Durability of metallic and composite structures.
- Design and structural assessment of metallic and composite structures.
- Advances in fracture analysis.
- Environmental effects and structural performance.
- Examination of computational codes for stress analysis and damage tolerance.
- Structural performance evaluation of metals, composites, hybrids and polymers.
- Repair technologies.
- Surface engineering and structural performance.
- Coating technology and structural performance.
- Structural ageing.
- Nanomechanics and nanomaterials.
- Evaluation of joining technologies.
- Durability of electronic materials.
- Probabilistic approach to damage tolerance.

How to submit a paper

The *International Journal of Structural Integrity* is now using ScholarOne Manuscripts online submission and tracking system.

To submit your paper online you must create an author account at <http://mc.manuscriptcentral.com/ijsi> then follow the on-screen guidance which takes you through the submission process.

For more information about making a submission please contact:

Editor: Chris Rodopoulos, University of Patras, Greece

E-mail: Rodopoul@mech.upatras.gr

More information and full author guidelines can be found at: <http://www.emeraldinsight.com/ijsi.htm>
