## Bibliometric indicators

1. Number of journal publications in WoS/ Scopus

2. Citations excluding self-citations WoS  Scopus

3. Hirsch index WoS  Scopus

1. The number of PhD students who have graduated under your supervision:

2. The number of PhD students currently supervised:

a. within the current doctoral school

b. within doctoral studies (previous system)

3. Are you currently accepting new PhD students:

a. Polish Yes/No

b. Foreign Yes/No

## Prospective supervisor's form

### Research interests or topics offered for PhD research (no more than 2000 characters)<sup>ii</sup>

The research interest include, but not limited, to the development of gas sensors, fuel cells, electrolysers, gas separation membranes and materials for biomedical applications using cost effective technologies (spin coating, spray pyrolysis, dip coating, electrospinning). These technologies utilize metallo-organic polymers and can be used for fabrication of thin and thick, dense and porous, functional layers. The transport properties of applied materials are crucial for these applications. Therefore, the research tasks include fabrication of materials and devices, their microstructural and structural characterisation as well as investigation of electric transport properties.

### Funding or special equipment needed to carry out a PhD project <sup>iii</sup>:

1. Is funding available for experimental work: *Yes/No/not needed*

Yes

2. Is the equipment needed to complete a PhD project

available in your lab/department: *Yes/No/not needed*

Yes

Additional relevant information – (no more than 1600 characters)<sup>v</sup>

- <sup>i</sup> You may select up to two disciplines out of 12 disciplines represented in the Doctoral School
- <sup>ii</sup> Observe the limit of not more than 2000 characters
- <sup>iii</sup> Leave only one answer
- <sup>iv</sup> Select the role in the project: PI stands for principal investigator (refers to the holder of an independent grant and the lead researcher for the grant project), Co-I for co-investigator (Co-I assists the principal investigator in the management and leadership of the research project), R for researcher
- <sup>v</sup> Add any other relevant information e.g. awards for PhD students whom you supervised (no more than 1600 characters)
